5 Seismic Shifts in the Church

1. **New normative attendance levels** - Churches that average 75-200 in attendance will be very common / Large churches with over 1000 in attendance will be on the decline
   - Millennials prefer closer community found in smaller congregations
   - Multi-site revolution is dispersing the crowds

2. **The virtual revolution** — Outsource some of the full or part-time employees positions
   - Greater funds for ministry
   - Greater efficiency
   - Decrease in liability for the church

3. **Massive downsizing of facility structure** — Space that is not utilized or underutilized
   - Churches will build small facilities
   - Remodeling worship space for smaller capacity will become normal
   - Churches will discover new ways to use their facilities during the week

4. **The small group revolution**
   - Churches emphasizing discipleship through groups
   - Churches will be healthier because of it
   - Discipleship requires strategic planning

5. **The continually learning leader** — Leaders will be “Life Long Learners”
   - Church leaders will continue to press forward and challenge themselves.
   - Church leaders will be systematic about how they organize their lives to make time for reading, school, and conferencing.
