

# Make an eternal investment with your 2020 VBS Missions Offering

**Missions Mobilization** of the Mississippi Baptist Convention Board invites you to participate in the **Home Building Project in Malaysia**

For the 10th year in a row, we are collecting VBS offerings to build longhouses in Malaysia. This year we will send MULTIPLE teams to build ONE longhouse.

The project is to help build homes for approximately 150 people. Their housing was destroyed by fire. The people are living in temporary housing which is not in good shape. These are farming families who follow animistic beliefs. This project is an opportunity to be a light to the whole community and share the message of Christ.

The cost of building a unit in a longhouse is \$1,400 per family. The offerings received will purchase the building materials. Missions Mobilization will send the volunteer construction teams to provide the labor, alongside the Malaysian families.

The longhouse construction projects have made a significant impact on the villages. Our teams are building more than homes; they are building relationships and opening doors to share the gospel. 727 decisions have been made for Christ and 430 homes have been built as a result of our involvement with these projects for the past nine years.

Please consider setting a goal for your VBS to collect \$1,400 to provide a home for a family in Malaysia.
