❖ Facility Needs

- Concerning our church, we'll have several projects as we have a multiple phase outline. This coming summer into fall, we could use a team to cut down, remove and clean up about 15-20 mature trees for a driveway expansion. We are also, the Lord willing, praying about phase two for our auditorium, which is to build in a balcony. All of this in God's timing of course.
- Upon request can get photos of trees that need removal.
